VOL. 4 (2007) - VOL. 5 (2008) - VOL. 6 (2009)

**General Policy.** CANCER GENOMICS & PROTEOMICS (CGP) welcomes submissions of original high quality articles and reviews on all aspects of the application of genomic and proteomic technologies to experimental and clinical cancer research. The journal's scientific spectrum includes: (a) molecular causes of carcinogenesis, cancer progression and metastasis; (b) structural and functional aspects of genes in the cancer cell; (c) advances in genomic and proteomic technologies applicable to cancer research; (d) anticancer drug design and drug development.

CGP will also accept abstracts and proceedings of scientific meetings for publication, following consideration and approval by the Editorial Board. A main aim of CGP is to ensure the prompt and confidential review, and rapid publication of original works and reviews, generally within 2-4 months from submission or 1-2 months from acceptance.

Articles in CANCER GENOMICS & PROTEOMICS are regularly indexed in the following bibliographic services: PUBMED, \* $\alpha$ DLINE, CAS (Chemical Abstracts Service); BIOLOGICAL ABSTRACTS; EMBASE and BIOBASE, Compendex, GEOBASE, EMBiology, FLUIDEX, Scopus (Elsevier Bibliographic Databases); BIOSIS PREVIEWS; LEEDS MEDICAL INFORMATION; CSA ILLUMINA (Cambridge Scientific Abstracts, including: Oncogenes & Growth Factors, Genetics, Medical & Pharmaceutical Biotechnology, Bioengineering); All-Russian Institute of Scientific and Technical Information – VINITI Abstracts Journal, PubsHub, SIIC.

## Instructions to Authors

*General Policy.* ANTICANCER RESEARCH (AR) will accept high quality original works and reviews on all aspects of experimental and clinical cancer research. The Editorial Policy advises that priority should be given to papers advancing the understanding of cancer causation, and to papers applying the results of basic research to cancer diagnosis, prognosis and therapy. AR will also accept the following for publication: (a) abstracts of scientific meetings on cancer, following consideration and approval by the Editorial Board; (b) announcements of meetings related to cancer research; (c) short reviews (of approximately 1,200 words) and announcements of newly published books and journals related to cancer; and (d) announcements of awards and prizes.

The journal acknowledges that authors of NIH funded research retain the right to provide a copy of the final manuscript to the NIH four months after publication in AR, for public archiving in PubMed Central.

A main aim of AR is to ensure the prompt publication of high quality original works, generally within 1-2 months from final acceptance. Manuscripts will be accepted on the understanding that they report original unpublished works on cancer that are not under consideration for publication by another journal, and that they will not be published again in the same form. All material submitted to AR will be subject to review, when appropriate, by two members of the Editorial Board and by one suitable outside referee. The Editors reserve the right to improve manuscripts in terms of grammar and style.

*Format.* Two types of papers may be submitted: (i) full papers containing completed original work, and (ii) short papers. Additionally, the Editors may invite review articles concerning fields of recognisable progress. Papers should contain all the essential data in order to make the presentation clear. Reasonable economy should be exercised with respect to the number of tables and illustrations used. Papers should be written in clear, concise English. Spelling should follow that of the "Oxford English Dictionary".

*Manuscripts.* Submitted manuscripts should not exceed fourteen (14) pages (approximately 250 words per double - spaced page), including abstract, text, tables, figures and references (corresponding to 4 printed pages). Papers exceeding four (4) printed pages will be subject to excess page charges. All manuscripts should be divided into the following sections: (a) First page including the title of the presented work [not exceeding fifteen (15) words], full names and full postal addresses of all Authors, name of the Author to whom proofs are to be sent, key words, an abbreviated running title, indication of the study type "clinical", "epidemiological", or "experimental", and date of submission. (Note: The order of the Authors is not necessarily indicative of their contribution to the work. Authors may note their individual contribution(s) in the appropriate section(s) of the presented work); (b) Abstract not exceeding 150 words, organized according to the following headings: Background - Materials and Methods or Patients and Methods - Results - Conclusion; (c) Introduction; (d) Materials and Methods or Patients and Methods; (e) Results; (f) Discussion; (g) Acknowledgements; and (h) References. All pages must be numbered consecutively. Footnotes should be avoided. Review articles may follow a different style according to the subject matter and the Author's preference. Review articles should not exceed 35 pages (approximately 250 words per double-spaced page) including all tables, figures and references.

*Figures.* All figures (whether photographs or graphs) should be clear, high contrast, glossy prints of the size they are to appear in the journal: 8.00 cm (3.15 in.) wide for a single column; 17.00 cm (6.70 in.) for a double column; maximum height: 20.00 cm (7.87 in.). Graphs must be submitted as photographs made from drawings and must not require any artwork, typesetting, or size modifications. Symbols, numbering and lettering should be clearly legible. The number and top of each figure must be indicated on the reverse side. Original karyotypes and photographs should be provided wherever possible, rather than photographic copies. A charge will be made for a colour plate. Figures should be numbered with Arabic numerals and include a short title, and legend if appropriate.

*Tables.* Each table should be submitted on a separate page, double-spaced. Tables should be numbered with Roman numerals and should include a short title, and legend if appropriate.

*Nomenclature and Abbreviations.* Nomenclature should follow that given in "Chemical Abstracts". Standard abbreviations are preferable. If a new abbreviation is used, it must be defined on first usage.

*References.* Citations for the reference section of submitted works should follow the standard form of "Index Medicus" and must be numbered consecutively in the order that they appear in the text. Examples: 1 Sumner AT: The nature of chromosome bands and their significance for cancer research. *Anticancer Res* 1: 205-216, 1981. 2 McGuire WL and Chamness GC: Studies on the oestrogen receptor in breast cancer. *In: Receptors for Reproductive Hormones.* O' Malley BW and Chamnes GC (eds.). New York, Plenum Publ Corp, pp. 113-136, 1973. In the text, references should be denoted as: (1), (2-5), (6, 7) etc.

*Submission of Manuscripts.* You can send your article via e-mail to journals@iiar-anticancer.org, indicating in which journal you wish to be submitted (ANTICANCER RESEARCH, IN VIVO or CANCER GENOMICS & PROTEOMICS). The text should be sent as a Word document (\*.doc) attachment. Tables, figures and cover letter can also be sent as e-mail attachments. **OR** You can send the manuscript of your article via regular mail in a usb stick, CD or floppy disk (including text, tables and figures) together with three hard copies of your manuscript to the following address: Dr. J.G. Delinassios, International Institute of Anticancer Research (IIAR), Editorial Office of ANTICANCER RESEARCH, IN VIVO and CANCER GENOMICS & PROTEOMICS. 1st km Kapandritiou-Kalamou Road, P.O. Box 22, GR-19014, Kapandriti, Attiki, Greece. Submitted articles will not be returned to Authors upon rejection.

*Galley Proofs.* Unless otherwise indicated, galley proofs will be sent by e-mail to the first-named Author of the submission. Corrections of galley proofs should be limited to typographical errors.

*Reprints.* Twenty-five copies of each published article will be provided free-of-charge. Additional copies may be ordered after acceptance of the paper. Requests for additional reprints should be addressed to the Editorial Office.
