

## Instructions for Authors 2019

**General Policy.** ANTICANCER RESEARCH (AR) will accept original high quality works and reviews on all aspects of experimental and clinical cancer research. The Editorial Policy suggests that priority will be given to papers advancing the understanding of cancer causation, and to papers applying the results of basic research to cancer diagnosis, prognosis, and therapy. AR will also accept the following for publication: (a) Abstracts and Proceedings of scientific meetings on cancer, following consideration and approval by the Editorial Board; (b) Announcements of meetings related to cancer research; (c) Short reviews (of approximately 120 words) and announcements of newly received books and journals related to cancer, and (d) Announcements of awards and prizes.

The principal aim of AR is to provide prompt publication (print and online) for original works of high quality, generally within 1-2 months from final acceptance. Manuscripts will be accepted on the understanding that they report original unpublished works in the field of cancer research that are not under consideration for publication by another journal, and that they will not be published again in the same form. All authors should sign a submission letter confirming the approval of their article contents. All material submitted to AR will be subject to peer-review, when appropriate, by two members of the Editorial Board and by one suitable outside referee. All manuscripts submitted to AR are urgently treated with absolute confidence, with access restricted to the Managing Editor, the journal's secretary, the reviewers and the printers. The Editors reserve the right to improve manuscripts on grammar and style.

The Editors and Publishers of AR accept no responsibility for the contents and opinions expressed by the contributors. Authors should warrant due diligence in the creation and issuance of their work.

**NIH Open Access Policy.** The journal acknowledges that authors of NIH-funded research retain the right to provide a copy of the published manuscript to the NIH four months after publication in ANTICANCER RESEARCH, for public archiving in PubMed Central.

**Copyright.** Once a manuscript has been published in ANTICANCER RESEARCH, which is a copyrighted publication, the legal ownership of all published parts of the paper has been transferred from the Author(s) to the journal. Material published in the journal may not be reproduced or published elsewhere without the written consent of the Managing Editor or Publisher.

**Format.** Two types of papers may be submitted: (i) Full papers containing completed original work, and (ii) review articles concerning fields of recognisable progress. Papers should contain all essential data in order to make the presentation clear. Reasonable economy should be exercised with respect to the number of tables and illustrations used. Papers should be written in clear, concise English. Spelling should follow that given in the "Shorter Oxford English Dictionary".

**Manuscripts.** Submitted manuscripts exceeding 4 printed pages will be subject to excess page charges. The 4 printed pages correspond approximately to twelve (12) document pages (~250 words per double-spaced typed page in Arial 12), including abstract, text, tables, figures, and references. All manuscripts should be divided into the following sections: (a) *First page* including the title of the presented work [not exceeding fifteen (15) words], full names and full postal addresses of all Authors, name of the Author to whom proofs are to be sent, key words, an abbreviated running title, an indication "review", "clinical", "epidemiological", or "experimental" study, and the date of submission. (Note: The order of the Authors is not necessarily indicative of their contribution to the work. Authors may note their individual contribution(s) in the appropriate section(s) of the presented work); (b) *Abstract* not exceeding 150 words, organized according to the following headings: Background/Aim – Materials and Methods/Patients and Methods – Results – Conclusion; (c) *Introduction*; (d) *Materials and Methods/Patients and Methods*; (e) *Results*; (f) *Discussion*; (g) *Conflicts of Interest*; (h) *Authors' contributions*; (i) *Acknowledgements*; (j) *References*. All pages must be numbered consecutively. Footnotes should be avoided. Review articles may follow a different style according to the subject matter and the Author's opinion. Review articles should not exceed 35 pages (approximately 250 words per double-spaced typed page) including all tables, figures, and references.

**Figures.** All figures should appear at the end of the submitted document file. Once a manuscript is accepted all figures and graphs should be submitted separately in either jpg, tiff or pdf format and at a minimum resolution of 300 dpi. Graphs must be submitted as pictures made from drawings and must not require any artwork, typesetting, or size modifications. Symbols, numbering and lettering should be clearly legible. The number and top of each figure must be indicated. Pages that include color figures are subject to color charges..

**Tables.** All tables should appear at the end of the submitted document file. Once a manuscript is accepted, each table should be submitted separately, typed double-spaced. Tables should be numbered with Roman numerals and should include a short title.

**References.** Authors must assume responsibility for the accuracy of the references used. Citations for the reference sections of submitted works should follow the form below and must be numbered consecutively. In the text, references should be cited by number in parenthesis. Examples: 1 Kenyon J, Liu W and Dagleish A: Report of objective clinical responses of cancer patients to pharmaceutical-grade synthetic cannabidiol. *Anticancer Res* 38(10): 5831-5835, 2018. PMID: 30275207. DOI: 10.21873/anticancer.12924. (PMIDs and DOIs only if applicable). 2 McGuire WL and Chamnes GC: Studies on the oestrogen receptor in breast cancer. In: *Receptors for Reproductive Hormones*. O' Malley BW, Chamnes GC (eds.). New York, Plenum Publ Corp., pp 113-136, 1973. 3 Global Health Estimates 2015: Disease Burden by Cause, Age, Sex, by Country and by Region, 2000-2015. Geneva, World Health Organisation, 2016. Available at [http://www.who.int/healthinfo/global\\_burden\\_disease/estimates/en/index2.html](http://www.who.int/healthinfo/global_burden_disease/estimates/en/index2.html). Last accessed on 3rd April 2018. (The web address should link directly to the cited information and not to a generic webpage).

**Nomenclature and Abbreviations.** Nomenclature should follow that given in “Chemical Abstracts”, “Index Medicus”, “Merck Index”, “IUPAC -IUB”, “Bergey’s Manual of Determinative Bacteriology”, The CBE Manual for Authors, Editors and Publishers (6th edition, 1994), and MIAME Standard for Microarray Data. Human gene symbols may be obtained from the HUGO Gene Nomenclature Committee (HGNC) (<http://www.gene.ucl.ac.uk/>). Approved mouse nomenclature may be obtained from <http://www.informatics.jax.org/>. Standard abbreviations are preferable. If a new abbreviation is used, it must be defined on first usage.

**Clinical Trials.** Authors of manuscripts describing clinical trials should provide the appropriate clinical trial number in the correct format in the text.

For International Standard Randomised Controlled Trials (ISRCTN) Registry (a not-for-profit organization whose registry is administered by Current Controlled Trials Ltd.) the unique number must be provided in this format: ISRCTNXXXXXXXX (where XXXXXXXX represents the unique number, always prefixed by “ISRCTN”). Please note that there is no space between the prefix “ISRCTN” and the number. Example: ISRCTN47956475.

For Clinicaltrials.gov registered trials, the unique number must be provided in this format: NCTXXXXXXXX (where XXXXXXXX represents the unique number, always prefixed by ‘NCT’). Please note that there is no space between the prefix ‘NCT’ and the number. Example: NCT00001789.

**Ethical Policies and Standards.** ANTICANCER RESEARCH agrees with and follows the “Uniform Requirements for Manuscripts Submitted to Biomedical Journals” established by the International Committee of Medical Journal Editors in 1978 and updated in October 2001 ([www.icmje.org](http://www.icmje.org)). Microarray data analysis should comply with the “Minimum Information About Microarray Experiments (MIAME) standard”. Specific guidelines are provided at the “Microarray Gene Expression Data Society” (MGED) website. Presentation of genome sequences should follow the guidelines of the NHGRI Policy on Release of Human Genomic Sequence Data. Research involving human beings must adhere to the principles of the Declaration of Helsinki and Title 45, U.S. Code of Federal Regulations, Part 46, Protection of Human Subjects, effective December 13, 2001. Research involving animals must adhere to the Guiding Principles in the Care and Use of Animals approved by the Council of the American Physiological Society. The use of animals in biomedical research should be under the careful supervision of a person adequately trained in this field and the animals must be treated humanely at all times. Research involving the use of human fetuses, foetal tissue, embryos and embryonic cells should adhere to the U.S. Public Law 103-41, effective December 13, 2001.

**Submission of Manuscripts.** Please follow the Instructions for Authors regarding the format of your manuscript and references. Manuscripts must be submitted only through our online submission system at: <http://www.iar-submissions.com/login.html>. In case a submission is incomplete, the corresponding Author will be notified accordingly. Questions regarding difficulties in using the online submission system should be addressed to: email: [journals@iar-anticancer.org](mailto:journals@iar-anticancer.org)

**Galley Proofs.** Unless otherwise indicated, galley proofs will be sent to the corresponding Author of the submission. Corrections of galley proofs should be limited to typographical errors. Reprints, PDF files, and/or Open Access may be ordered after the acceptance of the paper. Authors of online open access articles are entitled to a complimentary online subscription to Anticancer Research for the current year and all previous digital content since 2004 (upon request to the Subscriptions Office). Galley proofs should be returned corrected to the Editorial Office by email ([iar@iar-anticancer.org](mailto:iar@iar-anticancer.org)) within two days.

### **Specific information and additional instructions for Authors**

1. Anticancer Research (AR) closely follows the new developments in all fields of experimental and clinical cancer research by (a) inviting reviews on topics of immediate importance and substantial progress in the last three years, and (b) providing the highest priority for rapid publication to manuscripts presenting original results judged to be of exceptional value. Theoretical papers will only be considered and accepted if they bear a significant impact or formulate existing knowledge for the benefit of research progress.
2. Anticancer Research will consider the publication of conference proceedings and/or abstracts provided that the material submitted fulfils the quality requirements and instructions of the journal, following the regular review process by two suitable referees.
3. An acknowledgement of receipt, including the article number, title and date of receipt is sent to the corresponding author of each manuscript upon receipt. If this receipt is not received within 20 days from submission, the author should call or write to the Editorial Office to ensure that the manuscript (or the receipt) was not lost in the mail or during electronic submission.
4. Each manuscript submitted to AR is sent for review in confidence to two suitable referees with the request to return the manuscript with their comments to the Editorial Office within 12 days from receipt. If reviewers need a longer time or wish to send the manuscript to another expert, the manuscript may be returned to the Editorial Office with a delay. All manuscripts submitted to AR, are treated in confidence, without access to any person other than the Managing Editor, the journal’s secretary, the reviewers and the printers.
5. All accepted manuscripts are peer-reviewed and carefully corrected in style and language, if necessary, to make presentation clear. (There is no fee for this service). Every effort is made (a) to maintain the personal style of the author’s writing and (b) to avoid change of meaning. Authors will be requested to examine carefully manuscripts which have undergone language correction at the pre-proof or proof stage.

6. Authors should pay attention to the following points when writing an article for AR:
    - The Instructions to Authors must be followed in every detail.
    - The presentation of the experimental methods should be clear and complete in every detail facilitating reproducibility by other scientists.
    - The presentation of results should be simple and straightforward in style. Results and discussion should not be combined into one section, unless the paper is short.
    - Results given in figures should not be repeated in tables.
    - Figures (graphs or photographs) should be prepared at a width of 8 or 17 cm with legible numbers and lettering.
    - Photographs should be clear with high contrast, presenting the actual observation described in the legend and in the text. Each legend should provide a complete description, being self-explanatory, including technique of preparation, information about the specimen and magnification.
    - Statistical analysis should be elaborated wherever it is necessary. Simplification of presentation by giving only numerical or % values should be avoided.
    - Fidelity of the techniques and reproducibility of the results, should be points of particular importance in the discussion section. Authors are advised to check the correctness of their methods and results carefully before writing an article. Probable or dubious explanations should be avoided.
    - Authors should not cite results submitted for publication in the reference section. Such results may be described briefly in the text with a note in parenthesis (submitted for publication by... authors, year).
    - The References section should provide as complete a coverage of the literature as possible including all the relevant works published up to the time of submission.
    - By following these instructions, Authors will facilitate a more rapid review and processing of their manuscripts and will provide the readers with concise and useful papers.
  7. Following review and acceptance, a manuscript is examined in language and style, and galley proofs are rapidly prepared. Second proofs are not sent unless required.
  8. Authors should correct their galley proofs very carefully and preferably twice. An additional correction by a colleague always proves to be useful. Particular attention should be paid to chemical formulas, mathematical equations, symbols, medical nomenclature etc. Any system of correction marks can be used in a clear manner, preferably with a red pen. Additions or clarifications are allowed provided that they improve the presentation but do not bring new results (no fee).
  9. Articles submitted to AR may be rejected without review if:
    - they do not fall within the journal's policy.
    - they do not follow the instructions for authors.
    - language is unclear.
    - results are not sufficient to support a final conclusion.
    - results are not objectively based on valid experiments.
    - they repeat results already published by the same or other authors before the submission to AR.
    - plagiarism is detected by plagiarism screening services.(Rejection rate (2016): 66%).
  10. Authors who wish to prepare a review should contact the Managing Editor of the journal in order to get confirmation of interest in the particular topic of the review. The expression of interest by the Managing Editor does not necessarily imply acceptance of the review by the journal.
  11. Authors may inquire information about the status of their manuscript(s) by calling the Editorial Office at +30-22950-53389, Monday to Friday 9.00-16.00 (Athens time), or by sending an e-mail to [journals@iiar-anticancer.org](mailto:journals@iiar-anticancer.org)
  12. Authors who wish to edit a special issue on a particular topic should contact the Managing Editor.
  13. Authors, Editors and Publishers of books are welcome to submit their books for immediate review in AR. There is no fee for this service.
- (This text is a combination of advice and suggestions contributed by Editors, Authors, Readers and the Managing Editor of AR).

**General Policy**

- **IN VIVO** is a multidisciplinary journal designed to bring together original high quality works and reviews on experimental and clinical biomedical research within the frames of human physiology, pathology and disease management. A special focus of the journal is the publication of works on: (a) Experimental development and application of new diagnostic procedures; (b) Pharmacological and toxicological evaluation of new drugs and drug combinations; (c) Clinical trials; (d) Development and characterization of models of biomedical research.
- The principal aim of **IN VIVO** is to provide prompt online publication for accepted articles, generally within 1-2 months from final acceptance (3 months from submission).
- **Editorial Office:** International Institute of Anticancer Research, 1st km Kapandritiou-Kalamou Rd., P.O. Box 22, Kapandriti, Attiki 19014, Greece. Tel: +30 22950 52945, Fax: +30 22950 53389.

# CANCER GENOMICS & PROTEOMICS

ISSN (online): 1790-6245

Published by the International Institute of Anticancer Research

Online ISSN: 1790-6245

## General Policy

- **CANCER GENOMICS & PROTEOMICS (CGP)** welcomes submissions of original high quality articles and reviews on all aspects of the application of genomic and proteomic technologies to experimental and clinical cancer research. The journal's scientific spectrum includes: (a) molecular causes of carcinogenesis, cancer progression and metastasis; (b) structural and functional aspects of genes in the cancer cell; (c) advances in genomic and proteomic technologies applicable to cancer research; (d) anticancer drug design and drug development. A main aim of CGP is to ensure the prompt and confidential review, and rapid publication of original works and reviews, generally within 1-3 months from submission.
- CGP is published bimonthly by the **International Institute of Anticancer Research (IIAR)** and is available online only and open access with **Stanford University HighWire Press**. For more information please visit our website [www.cgp.iiarjournals.org](http://www.cgp.iiarjournals.org).

Factors Associated With Treatment Satisfaction After Robot-assisted Radical Prostatectomy. T. NAKAGAWA, Y. KADONO, R. NAITO, H. IWAMOTO, H. YAEGASHI, M. IJIMA, S. KAWAGUCHI, T. NOHARA, K. SHIGEHARA, K. IZUMI, A. MIZOKAMI (Kanazawa, Japan).....	6339
The Impact of Immunonutritional and Physical Status on Surgical Outcome After Pancreaticoduodenectomy in Elderly Patients. K. SUGIMACHI, T. IGUCHI, Y. MANO, T. NISHIJIMA, T. NAKANOKO, H. UEHARA, M. SUGIYAMA, M. OHTA, M. IKEBE, M. MORITA, Y. TOH (Fukuoka, Japan).....	6347
Prevalence and Characteristics of Pneumonitis Following Irradiation of Breast Cancer. E.M. WERNER, M.C. EGGERT, S. BOHNET, D. RADES (Lübeck, Germany).....	6355
Biopsy Type Disparities in Patients With Melanoma: Who Receives the Standard of Care? D.J. RESTREPO, M.T. HUAYLLANI, D. BOCZAR, A. SISTI, E. GABRIEL, R. LEMINI, A.C. SPAULDING, S. BAGARIA, O.J. MANRIQUE, A.J. FORTE (Jacksonville, FL; Rochester, MN, USA).....	6359
Impact of Acridine Orange in Patients With Soft Tissue Sarcoma Treated With Marginal Resection. H. TSUCHIE, M. EMORI, N. MIYAKOSHI, H. NAGASAWA, K. OKADA, Y. MURAHASHI, E. MIZUSHIMA, J. SHIMIZU, T. YAMASHITA, Y. SHIMADA (Akita; Sapporo, Japan).....	6365
Radiotherapy Plus GnRH Analogue Versus High Dose Bicalutamide: A Case Control Study. M. BUWENGE, F. DEODATO, G. MACCHIA, G. SIEPE, X. ZHAO, R.K. VALICENTI, S. CILLA, A.R. ALITTO, M. NTRETA, S. BISELLO, G. MANTINI, V. VALENTINI, A.G. MORGANTI, S. CAMMELLI (Bologna; Campobasso; Rome, Italy; Sacramento, CA, USA).....	6373
Microsatellite Instability in Greek Colorectal Carcinoma Patients: Clinicopathological and Molecular Correlations. P. KATAFYGIOTIS, S. SAKELLARIOU, I. CHATZIANDREOU, I. GIANNOPOULOU, I. THYMARA, A.A. SAETTA, P. KORKOLOPOULOU (Athens, Greece).....	6379

Fluoxetine Enhances Anti-tumor Activity of Paclitaxel in Gastric Adenocarcinoma Cells by Triggering Apoptosis and Necroptosis. T.M. KHING, W.W. PO, U.D. SOHN ( <i>Seoul, Republic of Korea</i> ).....	6155
Effect of Tissue Transglutaminase on Steroid Resistance in T-Cell Acute Lymphoblastic Leukemia. H.J. JUNG, E.H. HAN, I.K. JANG, S.-H. YOON, J.E. PARK ( <i>Suwon; Yongin, Republic of Korea</i> ).....	6165
<i>Clinical Studies</i>	
Acral Lentiginous Melanoma of Foot and Ankle: A Clinicopathological Study of 7 Cases. X. HAO, J. YIM, S. CHANG, E. SCHWARTZ, S. RUBENSTEIN, C. FRISKE, S. SHAMIM, E. MASTERNICK, G. MIRKIN ( <i>Rockville, MD, USA</i> ).....	6175
Hookwire-guided Sentinel Lymph Node Biopsy Using Contrast-enhanced Ultrasonography Followed by a One-step Nucleic Acid Amplification (OSNA) Assay for Breast Cancer. T. MIYAKE, K. SHIMAZU, T. TANEI, Y. NAOI, N. KAGARA, M. SHIMODA, S.J. KIM, S. NOGUCHI ( <i>Osaka, Japan</i> ).....	6183
The Value of CA19-9 After Irreversible Electroporation for Pancreatic Cancer. C. MÅNSSON, A. NILSSON, J. URDZIK, B.-M. KARLSON ( <i>Uppsala, Sweden</i> ).....	6193
Dairy Food Consumption and Mammographic Breast Density: The Role of Fat. E. CANITROT, C. DIORIO ( <i>Québec, Canada</i> ).....	6197
Is D2 Lymphadenectomy Essential for Cytology-positive Gastric Cancer? A Retrospective Analysis. S. ENDO, K. NISHIKAWA, K. FUJITANI, J. MATSUYAMA, M. IKENAGA, T. YAMADA, S. TAMURA, Y. SASAKI ( <i>Osaka, Japan</i> ).....	6209
Results of Tri-Modality Therapy for Rectal Cancer in Elderly Patients. M. TREDER, S. JANSSEN, S.E. SCHILD, D. RADES ( <i>Lübeck; Hannover, Germany; Scottsdale, AZ, USA</i> ).....	6217
Imaging Soft-tissue Sarcomas of the Head and Neck: A Tertiary Soft-tissue Sarcoma Unit Experience. A.A. JALY, K. THWAY, P. TOUSKA, A. WALE, A. MIAH, C. KERAWALA, F. RIVA, E. MOSKOVIC, R.L. JONES, D. STRAUSS, D.A. DAFYDD, C. MESSIOU ( <i>London, UK</i> ).....	6223
The Levels of Interferon-gamma Release as a Biomarker for Non-small-cell Lung Cancer Patients Receiving Immune Checkpoint Inhibitors. T. HIRASHIMA, T. KANAI, H. SUZUKI, H. YOSHIDA, A. MATSUSHITA, H. KAWASUMI, Y. SAMEJIMA, Y. NODA, S. NASU, A. TANAKA, N. MORISHITA, S. HASHIMOTO, K. KAWAHARA, Y. TAMURA, N. OKAMOTO, T. TANAKA ( <i>Osaka, Japan</i> ).....	6231
The mTOR Signaling Pathway Is Associated With the Prognosis of Malignant Pleural Mesothelioma After Multimodality Therapy. A. KURODA, S. MATSUMOTO, A. FUKUDA, T. NAKAMICHI, A. NAKAMURA, M. HASHIMOTO, T. TAKUWA, N. KONDO, T. TSUJIMURA, T. NAKANO, S. HASEGAWA ( <i>Nishinomiya; Osaka, Japan</i> ).....	6241
Elevated Expression of EPHA2 Is Associated With Poor Prognosis After Radical Prostatectomy in Prostate Cancer. H. KUROSE, K. UEDA, R. KONDO, S. OGASAWARA, H. KUSANO, S. SANADA, Y. NAITO, M. NAKIRI, K. NISHIHARA, T. KAKUMA, J. AKIBA, T. IGAWA, H. YANO ( <i>Kurume, Japan</i> ).....	6249
Expression of Kita-Kyushu Lung Cancer Antigen-1 as Detected by a Novel Monoclonal Antibody in Gastric Cancer. Y. TAKAHASHI, T. FUKUYAMA, N. FUTAWATARI, Y. ICHIKI, H. OHMIYA, M. CHUMAN, T. YAMASHITA, N. HIKI, Y. KUMAMOTO, H. YAMAZAKI, H. NONOGUCHI, Y. NISHI, N. KOBAYASHI ( <i>Kitamoto; Sagami-hara; Tokyo; Wako; Morioka, Japan</i> ).....	6259
The Impact of Antibiotics on Prognosis of Metastatic Renal Cell Carcinoma in Japanese Patients Treated With Immune Checkpoint Inhibitors. K. UEDA, S. YONEKURA, N. OGASAWARA, Y. MATSUNAGA, R. HOSHINO, H. KUROSE, K. CHIKUI, K. UEMURA, M. NAKIRI, K. NISHIHARA, M. MATSUO, S. SUEKANE, T. IGAWA ( <i>Kurume, Japan; Villejuif, France</i> ).....	6265

Integrated Small Dense Low-density Lipoprotein Profile in Cardiovascular Disease and Cancer: A Longitudinal Study. M. NOTARNICOLA, V. DE NUNZIO, V. TUTINO, N. VERONESE, V. GUERRA, A.R. OSELLA, M.G. CARUSO ( <i>Castellana Grotte, Italy</i> ).....	6035
<i>In Vitro</i> Study of the Anti-cancer Effect of Alternate-day 5-Fluorouracil in Head and Neck Cancer Cells. Y. MORO, Y. KOGASHIWA, H. SAKURAI, R. TAKAHASHI, T. KIMURA, M. HIRASAKI, Y. MATSUMOTO, M. SUGASAWA, N. KOHNO ( <i>Tokyo; Saitama, Japan</i> ) .....	6041
Effects of Volatile Anesthetics on Proliferation and Viability of SW480 Colon Cancer Cells <i>In Vitro</i> . A.C. BUNDSCHERER, V. ULLRICH, M. MALSZY, M.A. GRUBER, B.M. GRAF, G. BROCKHOFF, B. SINNER ( <i>Regensburg, Germany</i> ) .....	6049
Role of Phosphodiesterase2A in Proliferation and Migration of Human Osteosarcoma Cells. T. MURATA, K. SHIMIZU, K. KUROHARA, A. TOMEOKU, G. KOIZUMI, N. ARAI ( <i>Mie, Japan</i> ) .....	6057
Expression of Serpin B9 as a Prognostic Factor of Colorectal Cancer. O. VYCITAL, P. PITULE, P. HOSEK, T. KRIZ, V. TRESKA, V. LISKA ( <i>Pilsen, Czech Republic</i> ) .....	6063
Prothrombin 3'end Gene Variants in Patients With Sporadic Colon Adenocarcinoma. M. CUMBO, B. TOMIC, S. DUNJIC, T. JOVANOVIĆ, M. GVOZDENOV, I. PRUNER, G. ARALICA, S. KAPITANOVIĆ, T. CACEV, V. DJORDJEVIĆ ( <i>Belgrade, Serbia; Zagreb, Croatia</i> ) .....	6067
Oncolytic Effect of Adenoviruses Serotypes 5 and 6 Against U87 Glioblastoma Cancer Stem Cells. M.V. ROMANENKO, E.V. DOLGOVA, I.D. OSIPOV, G.S. RITTER, M.S. SIZOVA, A.S. PROSKURINA, Y.R. EFREMOV, S.I. BAYBORODIN, E.A. POTTER, O.S. TARANOV, V.V. OMIGOV, G.V. KOCHNEVA, A.A. GRAZHDANTSEVA, E.L. ZAVYALOV, I.A. RAZUMOV, S.V. NETESOV, S.S. BOGACHEV ( <i>Novosibirsk, Russia</i> ) .....	6073
G3BP1 Depletion Increases Radiosensitisation by Inducing Oxidative Stress in Response to DNA Damage. E. CHO, T.T. THAN, S.-H. KIM, E.-R. PARK, M.-Y. KIM, K.H. LEE, H.J. SHIN ( <i>Seoul, Republic of Korea</i> ) .....	6087
Evaluation and Clinical Significance of Jagged-1-activated Notch Signaling by APEX1 in Colorectal Cancer. H.-B. KIM, H.-J. LIM, H.-J. LEE, J.H. PARK, S.-G. PARK ( <i>Gwangju, Republic of Korea</i> ).....	6097
Bis(4-hydroxy-2H-chromen-2-one) Coumarin Induces Apoptosis in MCF-7 Human Breast Cancer Cells Through Aromatase Inhibition. L.H. RAMDANI, O. TALHI, C. DECOMBAT, M. VERMERIE, A. BERRY, A. SILVA, K. BACHARI, M.-P. VASSON, L. DELORT, F. CALDEFIE-CHÉZET ( <i>Tipaza, Algeria; Clermont Ferrand; Lyon, France; Aveiro, Portugal</i> ) .....	6107
Shikonin-induced Apoptosis of Colon Cancer Cells Is Reduced by Peroxiredoxin V Expression. N. CHANDIMALI, H.-N. SUN, L.-Z. KONG, X. ZHEN, R. LIU, T. KWON, D.-S. LEE ( <i>Jeju; Jeongeup, Republic of Korea; Daqing, PR China</i> ) .....	6115
Level of Melanotransferrin in Tissue and Sera Serves as a Prognostic Marker of Gastric Cancer. K. SAWAKI, M. KANDA, S. UMEDA, T. MIWA, C. TANAKA, D. KOBAYASHI, M. HAYASHI, S. YAMADA, G. NAKAYAMA, K. OMAE, M. KOIKE, Y. KODERA ( <i>Nagoya; Fukushima, Japan</i> ) .....	6125
Suppression of Carnosine on Adhesion and Extravasation of Human Colorectal Cancer Cells. C.-C. WU, P.-Y. LAI, S. HSIEH, C.-C. CHENG, S.-L. HSIEH ( <i>Taichung; Kaohsiung; Pingtung, Taiwan, ROC</i> ) .....	6135
Anti-tumor Effects of Cyclolinopeptide on Giant-cell Tumor of the Bone. Y. TANIGUCHI, N. YAMAMOTO, K. HAYASHI, A. TAKEUCHI, S. MIWA, K. IGARASHI, T. HIGUCHI, K. ABE, H. YONEZAWA, Y. ARAKI, S. MORINAGA, J. KAMEI, A.E. NUGROHO, T. KANEDA, H. MORITA, H. TSUCHIYA ( <i>Kanazawa; Tokyo, Japan</i> ) .....	6145

Double-negative T Cells Inhibit Proliferation and Invasion of Human Pancreatic Cancer Cells in Co-culture. Y. LU, P. HU, H. ZHOU, Z. YANG, Y. SUN, R.M. HOFFMAN, J. CHEN ( <i>Jinan; Hefei; Nanjing, PR China; San Diego, CA, USA</i> ) .....	5911
Robo1-specific CAR-NK Immunotherapy Enhances Efficacy of <sup>125</sup> I Seed Brachytherapy in an Orthotopic Mouse Model of Human Pancreatic Carcinoma. N. XIA, P. HAOPENG, J. GONG, J. LU, Z. CHEN, Y. ZHENG, Z. WANG, Y. SUN, Z. YANG, R.M. HOFFMAN, F. LIU ( <i>Suzhou; Shanghai; Nanjing, PR China; San Diego, CA, USA</i> ) .....	5919
Efficacy of Afatinib and Lapatinib Against <i>HER2</i> Gene-amplified Trastuzumab-sensitive and -resistant Human Gastric Cancer Cells. S. NAKATA, M. FUJITA, H. NAKANISHI ( <i>Kyoto; Osaka; Nagoya, Japan</i> )..	5927
Modulation of BDNF-TRKB Interactions on Schwann Cell-induced Oral Squamous Cell Carcinoma Dispersion <i>In Vitro</i> . L. EIN, C. MEI, O. BRACHO, E. BAS, P. MONJE, D. WEED, Z. SARGI, G. THOMAS, C. DINH ( <i>Miami, FL; Indianapolis, IA, USA</i> ) .....	5933
<i>PRAME</i> Expression as a Potential Biomarker for Hematogenous Recurrence of Esophageal Squamous Cell Carcinoma. H. BABA, M. KANDA, K. SAWAKI, D. SHIMIZU, S. UMEDA, M. KOIKE, Y. KODERA, T. FUJII ( <i>Toyama; Nagoya, Japan</i> ) .....	5943
Increased Immunosuppression Is Related to Increased Amounts of Ascites and Inferior Prognosis in Ovarian Cancer. A. COOSEMANS, T. BAERT, V. D'HEYGERE, R. WOUTERS, L. DE LAET, A. VAN HOYLANDT, G. THIRION, J. CEUSTERS, A. LAENEN, V. VANDECAVEYE, I. VERGOTE ( <i>Leuven, Belgium; Essen, Germany</i> ) .....	5953
Identification of Matrix Metalloproteinase 11 as a Prognostic Biomarker in Pancreatic Cancer. J. LEE, J. LEE, J.H. KIM ( <i>Jeju; Daejeon, Republic of Korea</i> ) .....	5963
Antiproliferative Effect of Lenvatinib on Human Liver Cancer Cell Lines <i>In Vitro</i> and <i>In Vivo</i> . S. OGASAWARA, Y. MIHARA, R. KONDO, H. KUSANO, J. AKIBA, H. YANO ( <i>Kurume, Japan</i> ) .....	5973
DJ-1 Contributes to Self-renewal of Stem Cells in the U87-MG Glioblastoma Cell Line. Y. TODA, R. YOSHIMURA, M. ITAHARA, Y. IMAI, K. YAMADA, T. UNO, S. NAKATA, S. HOSOGI, K. TAKATA, E. ASHIHARA ( <i>Kyoto, Japan</i> ) .....	5983
Aurora-A/NF-κB Signaling Is Associated With Radio-resistance in Human Lung Adenocarcinoma. J.-B. LIU, L. HU, Z. YANG, Y. SUN, R.M. HOFFMAN, Z. YI ( <i>Zhengzhou; Nanjing; Shanghai, PR China; San Diego, CA, USA</i> ).....	5991
Combination of Trabectedin With Oxaliplatin and 5-Fluorouracil Arrests a Primary Colorectal Cancer in a Patient-derived Orthotopic Xenograft Mouse Model. G. ZHU, M. ZHAO, Q. HAN, Y. TAN, Y. SUN, M. BOUVET, S.R. SINGH, J. YE, R.M. HOFFMAN ( <i>San Diego, CA; Frederick, MD, USA; Fuzhou, PR China</i> ).....	5999
The Histone Demethylase NO66 Induces Glioma Cell Proliferation. Q. WANG, P.Y. LIU, T. LIU, Q. LAN ( <i>Suzhou, PR China; Sydney, Australia</i> ).....	6007
Expression, Function, and Prognostic Value of MAGE-D4 Protein in Esophageal Squamous Cell Carcinoma. Y. UNO, M. KANDA, Y. SATO, D. SHIMIZU, S. UMEDA, N. HATTORI, M. HAYASHI, C. TANAKA, D. KOBAYASHI, S. YAMADA, G. NAKAYAMA, S. MOTOYAMA, M. KOIKE, Y. KODERA ( <i>Nagoya; Akita, Japan</i> ) .....	6015
Carbohydrate Antigen 19-9 Is a Prognostic Factor Which Correlates With HDAC1 and HIF-1α for Intrahepatic Cholangiocarcinoma. S. OHTA, Y. MORINE, S. IMURA, T. IKEMOTO, Y. ARAKAWA, S. IWAHASHI, Y. SAITO, S. YAMADA, Y. WADA, S. YAMASHITA, Y. BANDO, M. SHIMADA ( <i>Tokushima, Japan</i> ) .....	6025
