

## Instructions for Authors 2021

**General Policy.** ANTICANCER RESEARCH (AR) will accept original high quality works and reviews on all aspects of experimental and clinical cancer research. The Editorial Policy suggests that priority will be given to papers advancing the understanding of cancer causation, and to papers applying the results of basic research to cancer diagnosis, prognosis, and therapy. Each article should include a concrete conclusion constituting a “new piece of knowledge” backed up by scientific evidence. AR will also accept the following for publication: (a) Abstracts and Proceedings of scientific meetings on cancer, following consideration and approval by the Editorial Board; (b) Announcements of meetings related to cancer research; (c) Short reviews (of approximately 120 words) and announcements of newly received books and journals related to cancer, and (d) Announcements of awards and prizes.

AR provides for the prompt print and online publication of accepted articles, generally within 1-2 months from final acceptance. Manuscripts will be accepted on the understanding that they report original unpublished works in the field of cancer research that are not under consideration for publication by another journal, and that they will not be published again in the same form. All authors should sign a submission letter confirming the approval of their article contents. All material submitted to AR will be subject to peer-review, when appropriate, by two members of the Editorial Board and by one suitable outside referee. All manuscripts submitted to AR are urgently treated with absolute confidence, with access restricted to the Managing Editor, the journal’s secretary, the reviewers and the printers. The Editors reserve the right to improve manuscripts on grammar and style.

The Editors and Publishers of AR accept no responsibility for the contents and opinions expressed by the contributors. Authors should warrant due diligence in the creation and issuance of their work.

**NIH Open Access Policy.** The journal acknowledges that authors of NIH-funded research retain the right to provide a copy of the published manuscript to the NIH four months after publication in ANTICANCER RESEARCH, for public archiving in PubMed Central.

**Copyright.** Once a manuscript has been published in ANTICANCER RESEARCH, which is a copyrighted publication, the legal ownership of all published parts of the paper has been transferred from the Author(s) to the journal. Material published in the journal may not be reproduced or published elsewhere without the written consent of the Managing Editor or Publisher.

**Format.** Two types of papers may be submitted: (i) Full papers containing completed original work (without supplementary data), and (ii) review articles concerning fields of recognisable progress. Papers should contain all essential data in order to make the presentation clear. Reasonable economy should be exercised with respect to the number of tables and illustrations used. Papers should be written in clear, concise English. Spelling should follow that given in the “Shorter Oxford English Dictionary”.

**Manuscripts.** Submitted manuscripts exceeding 4 printed pages will be subject to excess page charges. The 4 printed pages correspond approximately to twelve (12) document pages (~250 words per double-spaced typed page in Arial 12), including abstract, text, tables, figures, and references. All manuscripts should be divided into the following sections: (a) *First page* including the title of the presented work [not exceeding fifteen (15) words], full names and full postal addresses of all Authors, name of the Author to whom proofs are to be sent, key words, an abbreviated running title, an indication “review”, “clinical”, “epidemiological”, or “experimental” study, and the date of submission. (Note: The order of the Authors is not necessarily indicative of their contribution to the work. Authors may note their individual contribution(s) in the appropriate section(s) of the presented work or before the Acknowledgements); (b) *Abstract* not exceeding 150 words, organized according to the following headings: Background/Aim – Materials and Methods/Patients and Methods – Results – Conclusion; (c) *Introduction*; (d) *Materials and Methods/Patients and Methods*; (e) *Results*; (f) *Discussion*; (g) *Conflicts of Interest*; (h) *Authors’ contributions*; (i) *Acknowledgements*; (j) *References*. All pages must be numbered consecutively. Footnotes should be avoided. Review articles may follow a different style according to the subject matter and the Author’s opinion. Review articles should not exceed 35 pages (approximately 250 words per double-spaced typed page) including all tables, figures, and references.

**Figures (graphs and photographs).** All figures should appear at the end of the submitted document file. Once a manuscript is accepted all figures should be submitted separately in either jpg, tiff or pdf format and at a minimum resolution of 300 dpi. Graphs must be submitted as pictures made from drawings and must not require any artwork, typesetting, or size modifications. Figures should be prepared at a width of 8 or 17cm with eligible symbols, lettering and numbers. The number of each figure must be indicated. Pages that include color figures are subject to color charges.

**Tables.** All tables should appear at the end of the submitted document file. Each table may have 2-10 vertical columns. Once a manuscript is accepted, each table should be submitted separately, typed double-spaced. Tables should be numbered with Roman numerals and should include a short title.

**References.** Authors must assume responsibility for the accuracy of the references used. Citations for the reference sections of submitted works should follow the form below and must be numbered consecutively. In the text, references should be cited by number in parenthesis. Examples: 1 Kenyon J, Liu W and Dagleish A: Report of objective clinical responses of cancer patients to pharmaceutical-grade synthetic cannabidiol. *Anticancer Res* 38(10): 5831-5835, 2018. PMID: 30275207. DOI: 10.21873/anticancer.12924. (PMIDs and DOIs only if

applicable). 2 McGuire WL and Chamnes GC: Studies on the oestrogen receptor in breast cancer. In: Receptors for Reproductive Hormones. O' Malley BW, Chamnes GC (eds.). New York, Plenum Publ Corp., pp 113-136, 1973. 3 Global Health Estimates 2015: Disease Burden by Cause, Age, Sex, by Country and by Region, 2000-2015. Geneva, World Health Organisation, 2016. Available at [http://www.who.int/healthinfo/global\\_burden\\_disease/estimates/en/index2.html](http://www.who.int/healthinfo/global_burden_disease/estimates/en/index2.html). Last accessed on 3rd April 2018. (The web address should link directly to the cited information and not to a generic webpage).

**Nomenclature and Abbreviations.** Nomenclature should follow that given in "Chemical Abstracts", "Index Medicus", "Merck Index", "IUPAC -IUB", "Bergey's Manual of Determinative Bacteriology", The CBE Manual for Authors, Editors and Publishers (6th edition, 1994), and MIAME Standard for Microarray Data. Human gene symbols may be obtained from the HUGO Gene Nomenclature Committee (HGNC) (<http://www.gene.ucl.ac.uk/>). Approved mouse nomenclature may be obtained from <http://www.informatics.jax.org/>. Standard abbreviations are preferable. If a new abbreviation is used, it must be defined on first usage.

**Clinical Trials.** Authors of manuscripts describing clinical trials should provide the appropriate clinical trial number in the correct format in the text.

For International Standard Randomised Controlled Trials (ISRCTN) Registry (a not-for-profit organization whose registry is administered by Current Controlled Trials Ltd.) the unique number must be provided in this format: ISRCTNXXXXXXXX (where XXXXXXXX represents the unique number, always prefixed by "ISRCTN"). Please note that there is no space between the prefix "ISRCTN" and the number. Example: ISRCTN47956475.

For Clinicaltrials.gov registered trials, the unique number must be provided in this format: NCTXXXXXXXX (where XXXXXXXX represents the unique number, always prefixed by 'NCT'). Please note that there is no space between the prefix 'NCT' and the number. Example: NCT00001789.

**Ethical Policies and Standards.** ANTICANCER RESEARCH agrees with and follows the "Uniform Requirements for Manuscripts Submitted to Biomedical Journals" established by the International Committee of Medical Journal Editors in 1978 and updated in October 2001 ([www.icmje.org](http://www.icmje.org)). Microarray data analysis should comply with the "Minimum Information About Microarray Experiments (MIAME) standard". Specific guidelines are provided at the "Microarray Gene Expression Data Society" (MGED) website. Presentation of genome sequences should follow the guidelines of the NHGRI Policy on Release of Human Genomic Sequence Data. Research involving human beings must adhere to the principles of the Declaration of Helsinki and Title 45, U.S. Code of Federal Regulations, Part 46, Protection of Human Subjects, effective December 13, 2001. Research involving animals must adhere to the Guiding Principles in the Care and Use of Animals approved by the Council of the American Physiological Society. The use of animals in biomedical research should be under the careful supervision of a person adequately trained in this field and the animals must be treated humanely at all times. Research involving the use of human foetuses, foetal tissue, embryos and embryonic cells should adhere to the U.S. Public Law 103-41, effective December 13, 2001.

**Submission of Manuscripts.** Please follow the Instructions for Authors regarding the format of your manuscript and references. Manuscripts must be submitted only through our online submission system at: <http://www.iiar-submissions.com/login.html>. In case a submission is incomplete, the corresponding Author will be notified accordingly. Questions regarding difficulties in using the online submission system should be addressed to: email: [journals@iiar-anticancer.org](mailto:journals@iiar-anticancer.org)

**Galley Proofs.** Unless otherwise indicated, galley proofs will be sent to the corresponding Author of the submission. Corrections of galley proofs should be limited to typographical errors. Reprints, PDF files, and/or Open Access may be ordered after the acceptance of the paper. Authors of online open access articles are entitled to a complimentary online subscription to Anticancer Research for the current year and all previous digital content since 2004 (upon request to the Subscriptions Office). Galley proofs should be returned corrected to the Editorial Office by email ([iiar@iiar-anticancer.org](mailto:iiar@iiar-anticancer.org)) within two days.

### **Specific information and additional instructions for Authors**

1. Anticancer Research (AR) closely follows the new developments in all fields of experimental and clinical cancer research by (a) inviting reviews on topics of immediate importance and substantial progress in the last three years, and (b) providing the highest priority for rapid publication to manuscripts presenting original results judged to be of exceptional value. Theoretical papers will only be considered and accepted if they bear a significant impact or formulate existing knowledge for the benefit of research progress.
2. Anticancer Research will consider the publication of conference proceedings and/or abstracts provided that the material submitted fulfils the quality requirements and instructions of the journal, following the regular review process by two suitable referees.
3. An acknowledgement of receipt, including the article number, title and date of receipt is sent to the corresponding author of each manuscript upon receipt. If this receipt is not received within 5 days from submission, the author should contact the Editorial Office to ensure that the manuscript (or the receipt) was not lost in the mail or during electronic submission.

4. Each manuscript submitted to AR is sent for peer-review (single-blind) in confidence to two-three suitable referees with the request to return the manuscript with their comments to the Editorial Office within 12 days from receipt. If reviewers need a longer time or wish to send the manuscript to another expert, the manuscript may be returned to the Editorial Office with a delay. All manuscripts submitted to AR, are treated in confidence, without access to any person other than the Managing Editor, the journal's secretary, the reviewers and the printers.
  5. All accepted manuscripts are carefully corrected in style and language, if necessary, to make presentation clear. (There is no fee for this service). Every effort is made (a) to maintain the personal style of the author's writing and (b) to avoid change of meaning. Authors will be requested to examine carefully manuscripts which have undergone language correction at the pre-proof or proof stage.
  6. Authors should pay attention to the following points when writing an article for AR:
    - The Instructions to Authors must be followed in every detail.
    - The presentation of the experimental methods should be clear and complete in every detail facilitating reproducibility by other scientists.
    - The presentation of results should be simple and straightforward in style. Results and Discussion should not be combined into one section.
    - Results given in figures should not be repeated in tables.
    - Photographs should be clear with high contrast, presenting the actual observation described in the legend and in the text. Each legend should provide a complete description, being self-explanatory, including technique of preparation, information about the specimen and magnification.
    - Statistical analysis should be elaborated wherever it is necessary. Simplification of presentation by giving only numerical or % values should be avoided.
    - Fidelity of the techniques and reproducibility of the results, should be points of particular importance in the discussion section. Authors are advised to check the correctness of their methods and results carefully before writing an article. Probable or dubious explanations should be avoided.
    - Authors should not cite results submitted for publication in the reference section. Such results may be described briefly in the text with a note in parenthesis (submitted for publication by... authors, year).
    - References. Each article should address, list and discuss the entire spectrum of current publications relevant to its field.
    - By following these instructions, Authors will facilitate a more rapid review and processing of their manuscripts and will provide the readers with concise and useful papers.
  7. Following review and acceptance, a manuscript is examined in language and style, and galley proofs are rapidly prepared. Second proofs are not sent unless required.
  8. Authors should correct their galley proofs very carefully and preferably twice. An additional correction by a colleague always proves to be useful. Particular attention should be paid to chemical formulas, mathematical equations, symbols, medical nomenclature etc. Any system of correction marks can be used in a clear manner, preferably in red. Additions or clarifications are allowed provided that they improve the presentation but do not bring new results (no fee).
  9. All Authors will be asked to supply author contribution and conflict of interest forms.
  10. Articles submitted to AR may be rejected without review if:
    - they do not fall within the journal's policy.
    - they do not follow the instructions for authors.
    - language is unclear.
    - results are not sufficient to support a final conclusion.
    - results are not objectively based on valid experiments.
    - they repeat results already published by the same or other authors before the submission to AR.
    - plagiarism is detected by plagiarism screening services.
 (Rejection rate (2020): 68%).
  11. Authors who wish to prepare a review should contact the Managing Editor of the journal in order to get confirmation of interest in the particular topic of the review. The expression of interest by the Managing Editor does not necessarily imply acceptance of the review by the journal.
  12. Authors may inquire information about the status of their manuscript(s) by calling the Editorial Office at +30-22950-53389, Monday to Friday 9.00-16.00 (Athens time), or by sending an e-mail to journals@iiar-anticancer.org
  13. Authors who wish to organize and edit a special issue on a particular topic should contact the Managing Editor.
  14. Authors, Editors and Publishers of books are welcome to submit their books for immediate review in AR. There is no fee for this service.
- (This text is a combination of advice and suggestions contributed by Editors, Authors, Readers and the Managing Editor of AR).

# CANCER GENOMICS & PROTEOMICS

ISSN (online): 1790-6245

Published by the International Institute of Anticancer Research

Online ISSN: 1790-6245

## General Policy

- **CANCER GENOMICS & PROTEOMICS (CGP)** welcomes submissions of original high quality articles and reviews on all aspects of the application of genomic and proteomic technologies to experimental and clinical cancer research. The journal's scientific spectrum includes: (a) molecular causes of carcinogenesis, cancer progression and metastasis; (b) structural and functional aspects of genes in the cancer cell; (c) advances in genomic and proteomic technologies applicable to cancer research; (d) anticancer drug design and drug development. A main aim of CGP is to ensure the prompt and confidential review, and rapid publication of original works and reviews, generally within 1-3 months from submission.
- CGP is published bimonthly by the **International Institute of Anticancer Research (IIAR)** and is available online only and open access with **Stanford University HighWire Press**. For more information please visit our website [www.cgp.iiarjournals.org](http://www.cgp.iiarjournals.org).
- **Editorial Office:** International Institute of Anticancer Research, 1st km Kapandritiou-Kalamou Rd., P.O. Box 22, Kapandriti, Attiki 19014, Greece. Tel: +30 22950 52945, Fax: +30 22950 53389.  
**U.S. Branch:** Anticancer Research Inc., USA, 111 Bay Avenue, Highlands, NJ, USA.
- **E-mail:** [journals@iiar-anticancer.org](mailto:journals@iiar-anticancer.org); IIAR WEBSITES: [www.iiar-anticancer.org](http://www.iiar-anticancer.org) and [www.iiarjournals.org](http://www.iiarjournals.org)

## ● Selection of Recent Articles

Micro RNAs Promoting Growth and Metastasis in Preclinical *In Vivo* Models of Subcutaneous Melanoma. U.H. WEIDLE, S. AUSLÄNDER, U. BRINKMANN (*Penzberg, Germany*)

Differential Proteomic Analysis of Hepatocellular Carcinomas from *Ppp2r5d* Knockout Mice and Normal (Knockout) Livers. C. LAMBRECHT, G.B. FERREIRA, J.D. OMELLA, L. LIBBRECHT, R. DE VOS, R. DERUA, C. MATHIEU, L. OVERBERGH, E. WAELEKENS, V. JANSSENS (*Leuven; Brussels, Belgium*)

Stem-like Cells from Invasive Breast Carcinoma Cell Line MDA-MB-231 Express a Distinct Set of Eph Receptors and Ephrin Ligands. M. LUCERO, J. THIND, J. SANDOVAL, S. SENAATI, B. JIMENEZ, R.P. KANDPAL (*Pomona, CA, USA*)

Circulating Tumor DNA in Biliary Tract Cancer: Current Evidence and Future Perspectives. A. RIZZO, A.D. RICCI, S. TAVOLARI, G. BRANDI (*Bologna, Italy*)

Whole-transcriptome Analysis of Fully Viable Energy Efficient Glycolytic-null Cancer Cells Established by Double Genetic Knockout of Lactate Dehydrogenase A/B or Glucose-6-Phosphate Isomerase. E. ## General Policy

- **IN VIVO** is a multidisciplinary journal designed to bring together original high quality works and reviews on experimental and clinical biomedical research within the frames of human physiology, pathology and disease management. A special focus of the journal is the publication of works on: (a) Experimental development and application of new diagnostic procedures; (b) Pharmacological and toxicological evaluation of new drugs and drug combinations; (c) Clinical trials; (d) Development and characterization of models of biomedical research.
- The principal aim of **IN VIVO** is to provide prompt online publication for accepted articles, generally within 1-2 months from final acceptance (3 months from submission).
- **Editorial Office:** International Institute of Anticancer Research, 1st km Kapandritiou-Kalamou Rd., P.O. Box 22, Kapandriti, Attiki 19014, Greece. Tel: +30 22950 52945, Fax: +30 22950 53389.
- **U.S. Branch:** Anticancer Research Inc., USA, 111 Bay Avenue, Highlands, NJ, USA.
- **E-mail:** journals@iia-anticancer.org; IIAR WEBSITES: www.iia-anticancer.org and www.iiajournals.org

- **International Journal of Experimental and Clinical Pathophysiology and Drug Research**
- **Published bimonthly by the International Institute of Anticancer Research**
- **Available online only and open access with Stanford University HighWire Press**

Errata .....	4659
Retractions .....	4661
Book Reviews .....	4663

The Use of CT Pattern in Differentiating Non-invasive, Minimally Invasive and Invasive Variants of Lung Adenocarcinoma. H. MIRKA, J. FERDA, G. KRAKOROVA, J. VODICKA, P. MUKENSABL, O. TOPOLCAN, R. KUCERA ( <i>Pilsen, Czech Republic</i> ) .....	4479
Primary Perivascular Epithelioid Cell Tumor (PEComa) of the Ovary: A Case Report and Review of the Literature. A. GADDUCCI, C. UGOLINI, S. COSIO, F. VISTOLI, E.F. KAUFMANN, U. BOGGI ( <i>Pisa, Italy</i> ).....	4483
Clinical Significance of Chemokine Receptor CXCR4 and CCR7 mRNA Expression in Patients With Colorectal Cancer. S. NAGASAWA, K. TSUCHIDA, M. SHIOZAWA, Y. HIROSHIMA, Y. KIMURA, I. HASHIMOTO, H. WATANABE, K. KANO, M. NUMATA, T. AOYAMA, S. SATO, T. YAMADA, H. TAMAGAWA, N. YAMAMOTO, T. OGATA, S. MORINAGA, N. YUKAWA, Y. RINO, M. MASUDA, H. SAEKI, Y. MIYAGI, T. OSHIMA ( <i>Yokohama; Maebashi, Japan</i> ) .....	4489
E-Cadherin and Angiopoietin-2 as Potential Biomarkers for Colorectal Cancer With Peritoneal Carcinomatosis. H.K. KIM, Y. YANG, S. BYEON, Y. JEONG, J. KWON, K.H. LEE, S.-M. SON, H.S. HAN ( <i>Cheongju, Republic of Korea</i> ).....	4497
Tumor Vascular Microenvironment of Colorectal Hepatic Metastasis and Chemotherapy Response. H. OKAMOTO, S. SHIBA, H. IINO, M. SUDOH, D. ICHIKAWA ( <i>Yamanashi, Japan</i> ) .....	4505
Prognostic Value of CD45Ro+ T-Cell Expression in Patients With Oral Squamous Cell Carcinoma. K. KOIKE, K. NISHIYAMA, H. DEHARI, K. OGI, T. SASAKI, S. SHIMIZU, T. SASAYA, K. TSUCHIHASHI, T. SONODA, T. HASEGAWA, H. HIRATSUKA, A. MIYAZAKI ( <i>Hokkaido, Japan</i> ).....	4515
Fibrin/fibrinogen Degradation Products Are Associated With Tumor Stage and Prognosis in Patients Undergoing Resection of Esophageal Cancer. M. SAKAI, M. SOHDA, S. UCHIDA, A. YAMAGUCHI, T. WATANABE, H. SAITO, Y. UBUKATA, N. NAKAZAWA, K. KURIYAMA, A. SANO, H. OGAWA, T. YOKOBORI, K. SHIRABE, H. SAEKI ( <i>Maebashi, Japan</i> ) .....	4523
The Impact of Intraoperative Blood Loss on the Survival After Laparoscopic Surgery for Colorectal Cancer. M. SHIBUTANI, K. MAEDA, S. KASHIWAGI, K. HIRAKAWA, M. OHIRA ( <i>Osaka, Japan</i> ).....	4529
Impact of COVID-19 Pandemic on Surgical Breast Cancer Patients Undergoing Neoadjuvant Therapy: A Multicentric Study. G. VANNI, M. PELLICCIARO, F. COMBI, S. PAPI, M. MATERAZZO, S. SEGATTINI, S. RIZZA, M. CHIOCCHI, T. PERRETTA, R. MEUCCI, I. PORTARENA, C.A. PISTOLESE, B. IELPO, M. CAMPANELLI, G. LISI, A. CHIARAVALLOTI, G. TAZZIOLI, O.C. BUONOMO ( <i>Rome; Modena; Pozzilli, Italy; Barcelona, Spain</i> ) .....	4535
Anemia in Placebo Arms of Cancer Studies. J.E. WOLFF ( <i>North Chicago, IL, USA</i> ) .....	4543
Associations Between ADC Texture Analysis and Tumor Infiltrating Lymphocytes in Brain Metastasis – A Preliminary Study. H.-J. MEYER, A.-K. HOHN, G. PRASSE, K.-T. HOFFMANN, A. SUROV ( <i>Leipzig; Magdeburg, Germany</i> ) .....	4549
Lenvatinib Rechallenge After Ramucirumab Treatment Failure for Hepatocellular Carcinoma. S. KOMATSU, Y. YANO, M. KIDO, K. KURAMITSU, H. GON, K. FUKUSHIMA, T. URADE, S. SO, H. YANAGIMOTO, H. TOYAMA, Y. KODAMA, T. FUKUMOTO ( <i>Kobe, Japan</i> ) .....	4555
Cytoplasmic-only Expression of Maspin Predicts Poor Prognosis in Patients With Oral Squamous Cell Carcinoma. M. KAWASAKI, T. SAKABE, I. KODANI, Y. UMEKITA ( <i>Yonago, Japan</i> ).....	4563
Comparison of Dose Distribution Between VMAT-SBRT and Scanning Carbon-ion Radiotherapy for Early-stage NSCLC. D. YOSHIDA, T. KUSUNOKI, Y. TAKAYAMA, Y. KUSANO, S. MINOHARA, K. KANO, W. ANNO, K. TSUCHIDA, Y. TAKAKUSAGI, N. MIZOGUCHI, I. SERIZAWA, T. EBARA, H. KATOH ( <i>Yokohama; Tokyo, Japan</i> ) .....	4571

Contribution of Interleukin-12A Genotypes to Breast Cancer Risk. Y.-C. WANG, Z.-H. WANG, T.-C. SHEN, W.-S. CHANG, S.-Z. HUANG, C.-C. YU, J.-C. CHEN, Y.-C. HSIAU, J.-S. YANG, C.-W. TSAI, D.-T. BAU (Taichung; Changhua, Taiwan, ROC) .....	4387
<i>Clinical Studies</i>	
Cancer Detection Rates in Targeted Transperineal MRI-TRUS Elastic Fusion-guided Prostate Biopsies Performed Under Local Anesthesia. M. JACEWICZ, E. RUD, K.F. GALTUNG, D. NOOR, E. BACO (Oslo, Norway).....	4395
Crypts in Asymmetric Fission in Endoscopic Biopsies from German Patients With Inflammatory Bowel Disease. C.A. RUBIO, C. LANG-SCHWARZ, M. VIETH (Stockholm, Sweden; Bayreuth, Germany) .....	4401
Sleep Disorders Prior to Adjuvant Radiation Therapy for Gynecological Malignancies. D. RADES, S. KOPELKE, T. SOROR, S.E. SCHILD, S. TVILSTED, T.W. KJAER, T. BARTSCHT (Lübeck, Germany; Scottsdale, AZ, USA; Koege; Roskilde, Denmark) .....	4407
How to Perform Curative Laparoscopic Hepatectomy for Intraoperatively Unidentified Hepatocellular Carcinoma. M. TSUNEMATSU, S. ONDA, M. YANAGAKI, N. OKUI, T. UWAGAWA, J. YASUDA, K. FURUKAWA, K. HARUKI, T. GOCHO, Y. TOYAMA, T. IKEGAMI (Tokyo, Japan) .....	4411
Ovarian Serous Carcinoma With a Novel HSP90AB1 Mutation in a Patient With Synchronous Primary Fallopian Tube Serous Carcinoma. J. LAI, C. TONG, J.R. CHIEN (Sacramento, CA, USA).....	4417
T2-weighted Imaging of the Breast at 1.5T Using Simultaneous Multi-slice Acceleration. J. RIFFEL, S. KANNENGISSER, S.O. SCHOENBERG, A.K. KAISER, D. OVERHOFF, P. RIFFEL, C.G. KAISER (Mannheim; Erlangen, Germany) .....	4423
Radical Surgery After Neoadjuvant Chemotherapy for Locally Advanced Neuroendocrine Cancer of the Cervix. G. CARUSO, I. PALAIA, V. DI DONATO, A. PERNAZZA, R. GALLO, G. PERNIOLA, M. LEOPIZZI, C. DELLA ROCCA, L. MUZII, P.B. PANICI (Rome; Latina, Italy) .....	4431
Evaluation of Pre-radiotherapy Sleep Disorders in Patients With Rectal or Anal Cancer. D. RADES, S. KOPELKE, T. BARTSCHT, S.E. SCHILD, S. TVILSTED, T.W. KJAER (Lübeck, Germany; Scottsdale, AZ, USA; Koege; Roskilde, Denmark) .....	4439
Renal Function Improves After the Discontinuation of Androgen Deprivation Therapy in Japanese Patients With Prostate Cancer. H. MASUDA, A. FUJIMOTO, M. KANESAKA, K. HOU, T. SUYAMA, K. ARAKI, S. KOJIMA, Y. NAYA (Chiba, Japan) .....	4443
The Impact of Tumor-associated Macrophages on Chemoresistance <i>via</i> Angiogenesis in Colorectal Cancer. M. SHIBUTANI, S. NAKAO, K. MAEDA, H. NAGAHARA, S. KASHIWAGI, K. HIRAKAWA, M. OHIRA (Osaka, Japan) .....	4447
Short-term Outcomes of Robot-assisted Minimally Invasive Esophagectomy Compared With Thoracoscopic or Transthoracic Esophagectomy. E. BOOKA, H. KIKUCHI, R. HANEDA, W. SONEDA, S. KAWATA, T. MURAKAMI, T. MATSUMOTO, Y. HIRAMATSU, H. TAKEUCHI (Shizuoka, Japan) .....	4455
BAI1 as a Prognostic Marker of Clear Cell Renal Cell Carcinoma (ccRCC). M. PESTA, I. TRAVNICEK, V. KULDA, J. WINDRICOVA, H. REZACKOVA, K. HOUFKOVA, T. MACANOVA, B. BENDOVA, A. NESTOROVA, O. HES, M. HORA, O. TOPOLCAN, J. POLIVKA (Pilsen, Czech Republic) .....	4463
Neutrophil-to-lymphocyte Ratio as a Prognostic Factor for Colon Cancer in Elderly Patients: A Propensity Score Analysis. J. MAZAKI, K. KATSUMATA, H. SUJINO, R. UDO, T. TAGO, K. KASAHARA, H. KUWABARA, M. ENOMOTO, T. ISHIZAKI, Y. NAGAKAWA, A. TSUCHIDA (Tokyo, Japan) .....	4471

Induction of Cross-resistance to ABCB1 Substrates in Venetoclax-resistant Human Leukemia HL60 Cells. Y. NAKAYAMA, K. TAKARA, T. MINEGAKI, K. YAMAMOTO, T. OMURA, I. YANO ( <i>Kobe; Himeji; Kyoto, Japan</i> ) .....	4239
Soluble Factors Involved in Cancer Cell–Macrophage Interaction Promote Breast Cancer Growth. K. YONEMITSU, Y. MIYASATO, T. SHIOTA, Y. SHINCHI, Y. FUJIWARA, S. HOSAKA, Y. YAMAMOTO, Y. KOMOHARA ( <i>Kumamoto, Japan</i> ) .....	4249
Gelatin Sponge as an Anchorage for Three-dimensional Culture of Colorectal Cancer Cells. M. KOYAMA, E. OSADA, Y. TAKEMURA, H. SAITO, E. KIKUCHI, M. NOMURA, K. SUGIMITSU, N. AKIYAMA, G. KUWATA, K.-I. IKEDA, T. TACHIBANA, Y. MANOME ( <i>Tokyo, Japan</i> ) .....	4259
Itraconazole Increases Resolvin E3 Concentration and 12/15-lipoxygenase Inhibitor Attenuates Itraconazole Cytotoxicity in Cervical Cancer Cells. R. ISONO, H. TSUBAMOTO, K. INOUE, T. UEDA, Y. TAKIMOTO, K. SAKATA, M. SHINOHARA, H. SHIBAHARA ( <i>Nishinomiya; Kobe, Japan</i> ) .....	4271
Preclinical Activity of Plitidepsin Against Clear Cell Carcinoma of the Ovary. R. MIYAKE, S. YAMANAKA, S. MATSUBARA, S. MABUCHI ( <i>Nara, Japan</i> ) .....	4277
P53 Is Involved in Sunitinib Resistance and Poor Progression-free Survival After Sunitinib Treatment of Renal Cell Carcinoma. Y. SEKINO, K. TAKEMOTO, D. MURATA, T. BABASAKI, K. KOBATAKE, H. KITANO, K. IKEDA, K. GOTO, S. INOUE, T. HAYASHI, D. TANIYAMA, M. SHIGETA, K. KURAOKA, K. MITA, M. KANEKO, K. SENTANI, N. OUE, J. TEISHIMA ( <i>Hiroshima; Kure, Japan</i> ) .....	4287
Genetic Analysis Reveals the Important Role of the APC Gene in Clear Cell Renal Cell Carcinoma. Y.-C. LAI, W.-C. WANG ( <i>Taichung, Taiwan, ROC</i> ).....	4295
Analysis of Mesencephalic Astrocyte-derived Neurotrophic Factor in Multiple Myeloma. A. DERNONCOURT, C. SAUZAY, J. SCHMIDT, C. LOUANDRE, C. GOMILA, P. DUHAUT, Y.-E. HERPE, Z. SAIDAK, A. GALMICHE, V. SALLE ( <i>Amiens, France</i> ).....	4305
Therapeutic Effects of GGsTop <sup>®</sup> Gel in a Mouse Model of 5-Fluorouracil-induced Oral Mucositis With Reduced White Blood Cells. I. TAKEUCHI, K. TANAKA, K. MAKINO ( <i>Chiba, Japan</i> ) .....	4313
Lurasidone Sensitizes Cancer Cells to Osimertinib by Inducing Autophagy and Reduction of Survivin. S. SUZUKI, M. YAMAMOTO, T. SANOMACHI, K. TOGASHI, S. SEINO, A. SUGAI, T. YOSHIOKA, M. OKADA, C. KITANAKA ( <i>Yamagata, Japan</i> ) .....	4321
Pathological Roles of Prostaglandin E2-specific E-type Prostanoid Receptors in Hormone-sensitive and Castration-resistant Prostate Cancer. Y. MIYATA, M. MASATO, Y. MUKAE, Y. NAKAMURA, T. MATSUDA, J. HARADA, K. MITSUNARI, T. MATSUO, K. OHBA, H. SAKAI ( <i>Nagasaki, Japan</i> ) .....	4333
Allyl Isothiocyanate Induces DNA Damage and Impairs DNA Repair in Human Breast Cancer MCF-7 Cells. C.-L. LIAO, S.-F. PENG, J.-C. CHEN, P.-Y. CHEN, A.-C. HUANG, J.-C. LIEN, F.-S. CHUEH, T.-A. CHIANG, P.-P. WU, K.-I. LIN ( <i>Taichung; Changhua; Yilan; Tainan, Taiwan, ROC</i> ) .....	4343
The HDAC1 Inhibitor CBUD-1001 Enhances TRAIL-induced Apoptosis in Colorectal Cancer Cells. M.W. SHIN, S.L. KIM, H.C. YANG, S.K. YIM, S.Y. SEO, S.T. LEE, H.-K. KIM, S.-W. KIM ( <i>Jeonju, Republic of Korea</i> ) .....	4353
Ouabain Suppresses Cell Migration and Invasion in Human Gastric Cancer AGS Cells Through the Inhibition of MMP Signaling Pathways. H.-Y. CHEN, M.-D. YANG, Y.-C. CHOU, Y.-S. MA, S.-F. PENG, C.-L. LIAO, P.-Y. CHEN, T.-C. HSIA, J.-C. LIEN, C.-H. CHEN ( <i>Taichung; Yunlin; Taipei; Kaohsiung; Changhua, Taiwan, ROC</i> ) .....	4365
HGF-mediated Up-regulation of PHLDA2 Is Associated With Apoptosis in Gastric Cancer. S.A. KOH, K.H. LEE ( <i>Daegu, Republic of Korea</i> ) .....	4377
